PROFILE

AdTech professional with 4+ years in programmatic advertising, publisher monetisation and strategic partnership management. At Azerion, I've grown from publisher support into SSP partnerships, building relationships across the supply and demand ecosystem and acting as the main connector between commercial, product and technical teams. Data-literate and people-driven, I bring a sociological lens to complex, fast-moving digital advertising environments where both insight and relationships matter.

EXPERIENCE

Azerion Technology B.V.

Milan, Italy

SSP Partnership Manager

Feb 2024 – May 2026

Served as Azerion's global point of contact for the leading SSPs in the market, managing strategic relationships on behalf of the company's inventory across the programmatic ecosystem. Bridged external SSP partnerships with internal product, technical and operations teams, leading partner evaluation, onboarding and activation while owning KPI tracking and performance reviews to inform commercial strategy.

Product Manager Italy

Nov 2022 – Feb 2024

Owned the full Italian publisher portfolio, driving client retention and growth. Served as product authority for the Italian market, channelling local requirements into the product roadmap and bridging Sales, Technical and Operations teams to translate publisher needs into scalable solutions.

Business Development & Publishers Support

Feb 2022 – Nov 2022

Supported the Italian Country Manager in driving publisher acquisition and retention, managing inbound client relationships and proposing tailored monetisation solutions.
